

A 32x32 heatmap visualization of the correlation matrix for 32 latent dimensions. The x and y axes are both labeled 'Latent Dimensions' and range from 0 to 31. The color scale on the right indicates correlation values from -0.75 (dark blue) to 1.00 (dark red), with 0.00 being light gray. The diagonal elements are all 1.00 (dark red). The plot shows a complex pattern of positive and negative correlations, with a notable block-like structure.
